CRYSTALLUM

Region and Vineyards

Litigo Pinot Noir is sourced from the **coastal Litigo vineyard**, situated just outside the Hemel-en-Aarde Ridge in South Africa's Overberg region. The **south-facing slopes** of this vineyard allow the vines to receive cooler temperatures, prolonging ripening and enhancing aromatic complexity. The soils, composed of **Bokkeveld shale and clay**, contribute to the wine's elegant, lighter style.

The **2023 vintage** began with a dry, warm start and early bud break, followed by cooler and wetter weather in December that extended the ripening period. Sporadic rainfall in February had minimal impact on the early-ripening Pinot Noir. The resulting wines from this vintage are both **focused and slightly riper** than previous years.

Winemaking

Crystallum Litigo 2023 is crafted with precision, using **20% whole bunches**, while the remaining fruit was de-stemmed and kept as whole berries. Fermentation was carried out in **stainless steel tanks** with indigenous yeasts, followed by an extended **five-week post-fermentation maceration** on the skins.

After pressing and settling, the wine was aged in **French oak barrels** (10% new) for **11 months**, allowing for subtle oak integration while preserving the wine's bright fruit character.
