Region and Vineyards

Sourced from the **Nemea region**, one of Greece's most renowned areas for **premium Agiorgitiko wines**, this wine benefits from a **Mediterranean climate** characterized by warm days and cool nights, allowing for optimal grape maturation.

The vineyards are **organically certified**, following European Organic Regulations (EC) No 834/2007, ensuring environmentally friendly viticulture and high-quality fruit. The soils, composed of **limestone and clay**, contribute to the **wine's structure and minerality**, while the **high-altitude sites** preserve freshness and balance.

Winemaking

The **hand-harvested grapes** undergo meticulous sorting before vinification. Fermentation takes place in **stainless steel tanks**, with an extended maceration of **2 to 3 weeks**, allowing for a gentle extraction of color, tannins, and aromatics.

The wine is then **aged for 12 months in French oak barrels**, adding complexity and softening the tannins. After bottling, it is further aged to ensure a harmonious integration of fruit, oak, and acidity, resulting in a well-balanced and structured wine.

Tasting Notes
