Marlborough, New Zealand

Region and Vineyards

Saint Clair's Pioneer Block 20 Sauvignon Blanc is sourced from the **Cash Block vineyard**, located in the **lower Wairau Valley**, once part of the region's historic flood plain. This flat terrain benefits from **deep, fertile, free-draining soils** that support healthy vine growth while promoting aromatic concentration and flavour intensity.

The **cooler maritime microclimate** extends the ripening period, allowing the grapes to develop **physiological ripeness and vibrant natural acidity**. Vineyard rows are oriented slightly off the traditional north-south axis, a detail that, along with the lush canopy health, contributes to the unique flavour signature of this site. The vineyard's management and terroir combine to produce **textured, aromatic Sauvignon Blanc** with saline minerality and precision.

Winemaking

The fruit was harvested at night to preserve freshness and **immediately pressed off the skins** to limit phenolic extraction. After cold settling, the juice was **fermented at low temperatures in stainless steel** using selected aromatic yeasts. This approach locks in primary fruit character and varietal clarity.

No oak or malolactic fermentation was used, preserving the wine's vibrant acidity and pure fruit profile. This particular batch was chosen for the Pioneer Block series due to its **intensity, mineral expression and balance**. Final wine parameters include **12.5% alcohol, 8.3 g/L acidity, 3.25 g/L residual sugar**, and a **pH of 3.39**, underscoring its refreshing and saline structure.

The Cash Block vineyard takes its name from its owners, Hayden and Kerry Register, but the wine's style suggests a subtle nod to **Marlborough's "liquid gold" reputation for Sauvignon Blanc**. This block exemplifies how small deviations in vineyard orientation and microclimate can craft a wine of striking individuality.

Wine Pairing Ideas
