Black Sparkling Shiraz 2021

Barossa Valley, Australia

Region and Vineyards

Rockford's **Black Sparkling Shiraz** is sourced from **premium vineyards in South Australia's Barossa Valley**, one of the most renowned regions for bold, expressive Shiraz. The Barossa's Mediterranean climate, with warm days and cool nights, allows Shiraz grapes to develop intense flavors while retaining freshness and balance.

The vineyards used for **Black Shiraz** include some of **the oldest Shiraz vines in Australia**, contributing to the wine's remarkable depth and structure. The region's rich ironstone and sandy loam soils enhance the **fruit purity and tannin profile**, making Barossa Shiraz particularly well-suited to the sparkling wine style.

Winemaking

The **Rockford Black Sparkling Shiraz** follows a meticulous, traditional winemaking process that has been refined over **35 years**.

Each vintage, **specific Shiraz parcels** are selected and aged in **oak barrels for two years** before blending. A portion of the fresh vintage is then combined with Rockford's **Black Shiraz base blend**, a continuously evolving cuvée that adds complexity and consistency to each bottling.

After blending, the wine undergoes **secondary fermentation in the bottle**, transforming it into a sparkling wine. This **Méthode Traditionnelle** approach ensures fine bubbles and a creamy texture. The wine is then **aged on lees**, before being **hand-riddled, disgorged, and liqueured** with Rockford's own fortified Shiraz, adding a layer of richness and structure.

Since the wine is a **multi-vintage blend**, the date on the bottle refers to the **disgorgement year**, rather than the vintage of the fruit.
