Region and Vineyards

The **Guado al Tasso estate** is situated in the heart of the **Bolgheri DOC appellation**, along the Tuscan coast in the Upper Maremma. Renowned for its unique geography, the region features a natural amphitheater formed by surrounding hills, which creates an ideal microclimate for viticulture. The **proximity to the sea** provides consistent breezes, moderating the summer heat and mitigating winter frosts, while ensuring high sunlight exposure for optimal ripening.

The estate spans **1,000 hectares (2,500 acres)**, with **320 hectares (790 acres)** dedicated to vines. This particular Vermentino benefits from the Bolgheri region's limestone and sandy soils, which enhance the wine's aromatic intensity and mineral backbone. The 2023 growing season featured a mild winter, a warm and dry summer, and beneficial rains in late August, creating perfect conditions for the grapes to reach peak maturity. The Vermentino harvest took place between **September 1st and September 20th**, yielding fruit of exceptional quality.

Winemaking

Each vineyard parcel was harvested separately to preserve the unique characteristics of the site. After destemming and gentle pressing, the must was fermented in **stainless steel tanks** at a controlled temperature of **16 °C (61 °F)** to retain the freshness and purity of the aromas.

After fermentation, the individual lots were meticulously evaluated and blended to create the final wine, capturing the essence of Bolgheri's terroir. The wine was bottled in **January 2024**, ensuring it retains its vibrancy and aromatic intensity.
